Kanlux TUBEO ES are surface-mounted luminaires that allow us to direct light in any direction thanks to two-axis adjustment. It is a fixture that is characterized by above-average aesthetics and excellent finish quality. In addition, these luminaires will include elegant and efficient light sources ES-111. Kanlux TUBEO ES will find use in places - such as showrooms or boutiques, but also in our homes. Here you need to highlight the unique shape (rounded corners), which adds a setting of subtlety. The luminaires are available in two colors - matt white and black.

- Enclosure material: aluminum alloy
