KDB-F54P-M	28341	bianco	63	18P	per montaggio a incasso nella parete	30

KDB

Quadro di distribuzione serie KDB

Quadri elettrici della serie KDB che soddisfano il requisito della resistenza al calore con temperatura a 650°C possono essere utilizzati esclusivamente su superfici incombustibili (ad esempio pareti solide realizzate in materiali non infiammabili). Non possono essere applicati su superfici infiammabili (ad esempio cartongesso, legno), su cosiddette "pareti vuote" o su cavetti tecnici.

- Materiale: plastica
